

labsummit[®] 2024

labsummit[®] aims to promote an inspiring environment where participants can update themselves, share knowledge, establish partnerships, and drive the advancement of the laboratory industry.

labsummit[®]concept

Four distinct pillars

Laboratory, Digital, Productivity and Sustainability.

Collaboration

Learning, collaboration and innovation.

International

Professionals from all over the world.

Latest Technologies

Innovations in the laboratory industry.

Why labsummit[®]?

Engage in Discussions

Learn from Experts

Networking

New Products & Technologies

Technical Knowledge

Updates on Regulations & Standards

Join us at labsummit
16 — 18 may 2024

Convento de São Francisco
Coimbra, Portugal

labsummit[®] 2024

labsummit[®] pillars

Laboratory — advances laboratory procedures through innovative technologies, equipment, and analysis techniques, aiming to improve efficiency and effectiveness.

Digital — leverages technologies such as automation, big data analysis, AI, IoT, AR, VR, to optimize lab processes, enhance data analysis, and foster collaboration.

Productivity — enhances lab efficiency through project management, workflow optimization, automation and resource management, aiming for improved productivity and outcomes.

Sustainability — promotes eco-friendly practices in labs through resource reduction, waste minimization, clean energy, and chemical management for a sustainable approach.
